

EXECUTIVE SECRETARIAT

For the Demining and Development of the North West Coast

Request for Proposal

Poultry Breeding Project

Title:	Support to the North West Coast Development and Mine Action Plan: Phase III Ministry of Investment and International Cooperation
Duration of Contract:	To be decided upon the technical proposal
Location	Matrouh Governorate

Background

In partnership with the Ministry of Investment and International Cooperation, the third phase of the project “Support to the North West Coast Development Plan and Relevant Mine Action” builds on the accomplishments realized during the previous phases. The new phase aims to strengthen national capacities to address Mine Action in Egypt, through the provision of relevant tools and mechanisms; reintegrate mine victims into the economy as productive community members; and support the continuation of mine clearance operations in line with the National Development Plan of the North West Coast. The main Outputs of the project are as follows:-

١. Strengthened national capacities of relevant stakeholders to manage Mine Action in Egypt, for mine clearance operations in the North West Coast region, and for accelerated mine clearance operations;
٢. Reintegration of Mine Victims, with special emphasis on women, into the society and enabling them to contribute to the development of the North West Coast Area;
٣. Developed and expanded Mine Risk Education Programme and advocacy activities.

This document contains a **Request for Proposal for Poultry Breeding Projects.**

In line with its goal to reintegrate landmine victims into the society and empower them economically, Exec Sec is planning to launch the Poultry Breeding Projects for the welfare of fifty households in Matrouh as income generating projects.

The selected firm is expected to perform the following tasks:-

- Conducts the feasibility study including: the technical study for the poultry project (highlighting the type of poultry that fits with the Matrouhi environment), financial projections, market analysis, marketing, as well as the environmental aspects.
- Identifies the beneficiaries from the legal and socio economic perspectives (in collaboration with the Exec Sec)
- Provides the fifty beneficiaries with vocational trainings on how to run the Poultry Project (Technically and financially).
- Procures all the necessary equipment, tools, supplies and goods for the implementation and running of the poultry project which includes poultry, feeders, and vaccinations to the households.
- Conducts field visits for technical assistance and follow up of the projects.
- Provides insurance scheme that covers the procured poultry.
- Comes up with any ideas/ recommendations that would support the success and sustainability of the project.

Firm Experience:

- Long and solid experience in the field of development and income generating activities mainly poultry projects (implementation and consultancy).
- Relevant educational background of the implementing and consultancy team.
- Previous experience with Governmental Bodies and International Partners is an asset.
- Familiarity with the Matrouhi culture and traditions is important.
